

SUSTAINABILITY

FPU BRINGS A TRADITION OF EXCELLENCE INTO
THE SUSTAINABILITY CERTIFICATE PROGRAM

JOE HARRITY '20

Create a thriving world that is ecologically healthy, economically viable, and socially just. The Sustainability Certificate will develop your practical experience, while creating and implementing solutions to real sustainability challenges, both on campus and in the local community.

This interdisciplinary program of study crafts a diverse set of skills, knowledge, and techniques. Explore “green” topics through laboratory coursework, projects, and field research. Develop a semester-long project where you take actions to address issues such as climate change, habitat management, water pollution, waste reduction and others.

You must successfully complete 15 credits to earn the Sustainability Certificate.

SUSTAINABILITY
