

NONPROFIT ACADEMY

COURSE OVERVIEW

Nonprofit organizations have always needed able governing board members, but many potential candidates are unsure about board service due to their lack of knowledge of how nonprofits work. The TANGO Nonprofit Academy was designed to prepare candidates with little or no experience for board service.

This course also helps the directors, officers, and management-level employees of nonprofit organizations be better at what they do. Attendees will sharpen their skills for their benefit and that of the organizations they serve by gaining an insight into nonprofit law, governance, taxation, finance, and other aspects of running a successful nonprofit organization.

NONPROFIT ACADEMY
