## YOUR PATHWAY TO NURSING

# Find Your Path to a Rewarding Career in Nursing

## RN to BSN

Already have your registered nursing license (RN) and want to earn a Bachelor of Science in Nursing? As a working nurse with your associate's degree or nursing diploma, you can earn your BSN 100% online. Our faculty and staff will help you create a flexible schedule. Enroll today, and complete your BSN degree in less than one year. **NH & AZ Residents Pay Only \$250/ Credit for Online BSN Courses!**

Pursuing my MEPN at Franklin Pierce really accelerated my career. I was able to complete the program in 18 months and, before I even graduated, I was getting multiple job offers. Because this is a sought-after degree, not only were hospitals sending me competing offers, most were giving me the opportunity to choose the department in which I'd like to work.

Amelia Mamone '22, MEPN

## MSN

### **RN – MSN | Track I**

Already have a BSN? You are a perfect candidate for our online Master of Science in Nursing (MSN). Concentrate in either Nursing Education or Nursing Leadership or pursue the online dual MSN/ Master of Business Administration (MBA) degree path. The MSN can be completed in as few as 18 months and the MSN/MBA in 2.5 years.

### **RN – MSN | Track II**

Do you have a non-nursing bachelor's degree and a nursing license? At Franklin Pierce you can earn your MSN by taking one extra course, the Bridge course, allowing you to complete your degree in less than 2 years.

### **RN – MSN | Track III**

Are you a registered nurse without a bachelor's degree? Combine online learning with part or fulltime study to create a flexible and personalized schedule. Our RN to MSN program allows you to take two online graduate courses at the undergraduate rate that will count toward your MSN. You'll save money and time while completing a graduate level degree. Students will complete their BSN first, before moving onto the MSN portion.

## MEPN

Have a Bachelor's in another field and now want to become a nurse? With Franklin Pierce's hybrid Master's Entry to Nursing Program (MEPN) you can earn a Healthcare Administration Certificate, an MSN, and be prepared to pass the National Council State Boards of Nursing RN exam (NCLEX) in just 18 months.

## MEPN-DIRECT ENTRY

Are you a high school student exploring a career in nursing? Our MEPN Direct Entry Program enables students to earn a bachelors in a non-nursing health science field and graduate with a Master of Science in Nursing, along with a Healthcare Administration Certificate in just 5.5 years.
