

Connect to Franklin Pierce University Students with Handshake!

Franklin Pierce University uses **Handshake** - a robust platform for college recruiting, as our main means of sharing job, internship opportunities and recruiting events with our students and alumni.

We invite you to develop both your **Employer and User Profile** so that students and alumni may learn more about your company, internship opportunities, and open positions. Handshake allows for multiple contacts so that employees from across your organization can post and contact students who are a good fit for your positions.

You can use Handshake to reach more students and recent graduates, post internship and job opportunities, share information with students about your organization in your company profile and **post virtual events**. You can share events on your own virtual platform or within Handshake.

To log on for the first time and add Franklin Pierce University to your profile:
https://app.joinhandshake.com/employer_registrations/new or use this QR code.
